WILLIAM T FUJIOKA  
Chief Executive Officer

November 7, 2012

The Honorable Board of Supervisors  
County of Los Angeles  
383 Kenneth Hahn Hall of Administration  
500 West Temple Street  
Los Angeles, California 90012

Dear Supervisors:

**DEPARTMENT OF PARKS AND RECREATION:  
AWARD JOB ORDER CONTRACTS P14 AND P15  
APPROVE REPAIR AND MAINTENANCE PROJECTS  
(SPECIFICATIONS - VARIOUS)  
(ALL DISTRICTS) (3 VOTES)**

**SUBJECT**

Approval of the recommendations will approve the list of repair and maintenance projects included in Attachment A and allow the Department of Parks and Recreation to engage in flexible and cost-effective unit price contracts with MTM Construction, Inc., and Angeles Contractor, Inc., for repair and maintenance of County of Los Angeles park facilities.

**IT IS RECOMMENDED THAT THE BOARD:**

1. Find the award of Job Order Contracts P14 and P15 and the 34 repair and maintenance projects are categorically exempt from the California Environmental Quality Act for the reasons stated in this letter and in the record of the projects.
2. Approve the work of the repair and maintenance projects listed in Attachment A to be performed under the recommended Job Order Contracts P14 and P15.
3. Award Job Order Contract P14 to MTM Construction, Inc., for a maximum cost of \$4.3 million to be financed from repair and maintenance project budgets as deemed appropriate by the Director of Parks and Recreation, or his designee.

**ADOPTED**

BOARD OF SUPERVISORS  
COUNTY OF LOS ANGELES

22 November 7, 2012

*Sachi A. Hamai*  
SACHI A. HAMAI  
EXECUTIVE OFFICER

Board of Supervisors  
GLORIA MOLINA  
First District

MARK RIDLEY-THOMAS  
Second District

ZEV YAROSLAVSKY  
Third District

DON KNABE  
Fourth District

MICHAEL D. ANTONOVICH  
Fifth District

4. Award Job Order Contract P15 to Angeles Contractor, Inc., for a maximum cost of \$4.3 million to be financed from repair and maintenance project budgets as deemed appropriate by the Director of Parks and Recreation, or his designee.
5. Authorize the Director of Parks and Recreation, or his designee, to execute the Job Order Contracts in the form previously approved by County Counsel and to establish the effective date following the receipt of approved Faithful Performance and Labor and Materials Bonds filed by MTM Construction, Inc., and Angeles Contractor, Inc.
6. Authorize the Director of Parks and Recreation, or his designee, as agent of the County of Los Angeles, to execute work orders for the repair and maintenance Projects listed in Attachment A.
7. Authorize the Director of Parks and Recreation, or his designee, as agent of the County of Los Angeles, to accept the work performed under each work order and to release the retention upon acceptance of the work.

#### **PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION**

Approval of the recommended actions will find the proposed repair and maintenance projects (Projects) exempt from the California Environmental Quality Act (CEQA); authorize the award of Job Order Contracts (JOC) P14 and P15 to provide the Department of Parks and Recreation (Department) contracting authority for up to 34 Projects listed in Attachments A and B; and pursuant to Article 20145 of the California Public Contracting Code, will authorize the use of JOCs for the Projects listed in Attachment A. In addition, the Department will implement the Board-approved Local Worker JOC Program based on Project location in accordance with the intent of the Program.

Upon the Board's approval of the recommended actions, the Department will implement and/or complete the repair and maintenance Projects included in Attachment A. The Projects listed in Attachment B are also repair and maintenance, but include a more substantial scope of work, including demolition and/or construction that are refurbishments, replacements, or renovations. For these Projects, the Department will return to the Board to recommend approval of the Project scopes, budgets, and delivery methods, with the exception of the Carver Park General Improvements, Capital Project No. 86451, which was approved by the Board on November 15, 2011. Although the total estimated value of all possible Project work orders exceeds the \$8.6 million of the proposed contracts, the Department will issue work orders only up to the approved contract amount.

The Projects listed in Attachments A and B consist of refurbishments to restrooms and community buildings, repair and replacement of roofs, and repair to concrete walkways. The JOCs will not be used for new construction. In addition, for any work determined not to be exempt from CEQA following further assessment, the Department will return to the Board to recommend approval of the appropriate environmental documentation pursuant to CEQA prior to implementation of applicable work orders under the recommended agreements.

JOC is a flexible, cost-effective unit price contracting method that provides for the maintenance, repair, remodeling, and refurbishment of County facilities and infrastructure without extensive plans and specifications. This relatively simple and straight-forward process reduces administrative requirements and lowers direct construction costs while meeting all Federal, State, and County procurement requirements.

Public Contract Code Section 20128.5 allows individual JOCs to have a one-year term and a maximum amount of \$3 million. The 1997 amendment to this section of the Public Contract Code allows annualized monetary increases, based on the Consumer Price Index, which has increased the maximum contract amount to \$4.3 million.

### **Implementation of Strategic Plan Goals**

The recommended actions will support the Countywide Strategic Plan Goals of Operational Effectiveness (Goal 1) by increasing the County's ability to manage workload fluctuations in a responsive manner and by providing responsive, efficient, and high-quality public service.

### **FISCAL IMPACT/FINANCING**

The recommended contracts have a maximum limit of \$4.3 million each. Work orders will be financed through the appropriate refurbishment Projects as budgeted in the Capital Projects/Refurbishments, Extraordinary Maintenance Budget, or as funded through the Department's Operating and Special Funds Budgets. No work will be assigned to the JOCs without the Chief Executive Office's authorization to ensure availability of sufficient appropriation in each of the identified funding sources.

### **FACTS AND PROVISIONS/LEGAL REQUIREMENTS**

A standard contract will be used in the form previously approved by County Counsel. The standard Board-directed clauses for contract terminations, renegotiations, and hiring qualified displaced County employees will be included.

The Project Manual also contains provisions requiring the contractors to report solicitations of improper consideration by County employees and allowing the County to terminate the contracts, if it is found that the contractors offered or gave improper consideration to County employees.

Pursuant to article 20128.5 of the Public Contracting Code, the Board's approval of work to be performed under the subject contracts is required.

As requested by the Board on August 12, 1997, and as a threshold requirement for consideration for contract award, MTM Construction, Inc., and Angeles Contractor, Inc., are willing to consider Greater Avenues for Independence (GAIN) and General Relief Opportunities for Work (GROW) Programs' participants for future employment.

MTM Construction, Inc., and Angeles Contractor, Inc., as required by State law, will be required to pay prevailing State wage rates to all persons employed on these JOCs.

As required by the Board, language has been incorporated into the Project Specifications stating that the contractors shall notify their employees and shall require each subcontractor to notify its employees about Board Policy 5.135 (Safely Surrendered Baby Law) and that they may be eligible for the Federal Earned Income Credit under the Federal income tax laws.

In addition, MTM Construction, Inc., and Angeles Contractor, Inc., are in full compliance with Los Angeles County Code Chapter 2.200 (Child Support Compliance Program) and Chapter 2.203 (Contractor Employee Jury Service Program).

### **Local Worker JOC Program**

Monitoring of the Local Worker JOC Program will be provided by the Department of Public Works (Public Works) contract administration staff based on review of the JOC work site and individual labor hours in the local area to determine a percentage of hours worked by each of the specific work orders. The contractors will provide certified payroll records for labor forces. These records will be monitored by work order, hours worked, and zip code of the workers to establish the percentage of total work performed by local forces. The Department will report the results of the Local Worker JOC Program to the Board each year as part of its annual resolicitation for JOC contractors.

### **ENVIRONMENTAL DOCUMENTATION**

The proposed repair and maintenance Projects included in Attachment A and B that are not identified as Historical Resources are categorically exempt from CEQA. The proposed Projects include repair and maintenance of existing facilities, replacement of

existing structures and facilities, minor alterations in the condition of land, and construction or replacement of minor structures accessory to existing facilities. Therefore the proposed Projects are within certain classes of projects that have been determined to be exempt from CEQA in that they meet criteria set forth in the State CEQA Guidelines exemption sections and the County's Environmental Document Reporting Procedures and Guidelines exemption sections listed in Attachments A and B. The proposed work involves either negligible or no expansion of existing use, and any replacement structures will have substantially the same purpose and capacity as structures replaced.

In addition, the proposed repair and maintenance Projects identified as Historical Resources in Attachments A and B, involve the restoration and/or rehabilitation of historical resources. All of the proposed Projects identified as Historical Resources listed in Attachments A and B are additionally categorically exempt from CEQA pursuant to Section 15331 of the State CEQA Guidelines, as well as the other State CEQA Guidelines exemption sections identified, and the County's Environmental Document Reporting Procedures and Guidelines exemption sections identified in Attachments A and B, because the proposed Projects consist of maintenance, repair, stabilization, rehabilitation, restoration, preservation, conservation, or reconstruction of historical resources in a manner consistent with the Secretary of the Interior's Standards for the Treatment of Historic Resources with the Guidelines for Preserving, Rehabilitating, Restoring, and Reconstructing Historic Buildings (1995) Weeks and Grimmer. As such, there will be no adverse change in the significance of any historic resource.

None of the individual proposed Projects identified are located in a sensitive environment and there are no cumulative impacts or unusual circumstances or other limiting factors that would make the exemptions inapplicable based on the Project records. The proposed work will not involve the removal of healthy, mature, scenic trees.

For any proposed work that is not determined to be exempt from CEQA following further assessment, the Department will return to the Board to recommend approval of the appropriate environmental documentation pursuant to CEQA prior to implementation of applicable work orders under the agreements.

## **CONTRACTING PROCESS**

The Department received assistance from Public Works and the Gordian Group, Inc., during the bidding process for these contracts. Both Public Works and the Gordian Group, Inc., will continue to support the Department during the term of these contracts, and Public Works will support the Department in issuing the individual notices to proceed and monitoring the total amounts expended and committed under the contracts.

In May 2012, using the JOC Unit Price Book and Specifications adopted by the Board on April 10, 2012, Public Works issued and advertised an Invitation for Bids for a total of two JOCs that would incorporate the use of a Local Worker JOC Program. Bidders were required to submit a set of cost adjustment factors that would be applied to the unit prices for work in the JOC Unit Price Book. Bids were to be determined by calculating a composite factor using a predetermined and advertised formula with the JOC Unit Price Book and the contractors' adjustment factors to be incorporated in the awarded contracts.

Competitive bids were received on June 28, 2012. We recommend that the Board award JOCs P14 and P15 to the Lowest Responsive and Responsible Bidder on both contracts, MTM Construction, Inc., and Angeles Contractor, Inc., respectively. The bid results for the two JOCs are summarized in Attachment C. MTM Construction, Inc.'s, and Angeles Contractor, Inc.'s, three-year contracting history are on file with Public Works.

To ensure the contracts are awarded to responsible contractors with a satisfactory performance history, Bidders were required to report violations of the False Claims Act, their civil litigation history and information regarding prior criminal convictions. The information reported by MTM Construction, Inc., and Angeles Contractor, Inc., was considered before making this recommendation to approve execution of the contracts. As requested by the Board on February 3, 1998, these JOC opportunities were listed on the Doing Business with Us Website. A copy of the website posting is included as Attachment C for your reference. Public Works has evaluated and determined that the Living Wage Program (County Code Chapter 2.201) does not apply to the recommended contracts, as these contracts are for non-Proposition A services. Participation by Community Business Enterprises (CBE) in the Project is encouraged through Public Work's Capital Projects CBE Outreach Program and by monitoring the good faith efforts of contractors to utilize CBE's.

The Honorable Board of Supervisors  
November 7, 2012  
Page 7

**IMPACT ON CURRENT SERVICES (OR PROJECTS)**

The use of these contracts will expedite the completion of repair or refurbishment work throughout the Department. Minor impacts may occur while repair or refurbishment work is underway.

**CONCLUSION**

Please return one adopted copy of this Board letter to the Chief Executive Office, Capital Projects Division, and to the Department of Parks and Recreation.

Respectfully submitted,

WILLIAM T FUJIOKA  
Chief Executive Officer
